

## Upcoming On-demand Course List

We are currently expanding the list of Distance Learning (DL) courses available to members. These online, on-demand courses can be purchased and viewed anytime, anywhere and are recorded versions of live delivery. The pandemic has created many challenges for course scheduling and preparation of these products; however, they will become available late fall 2020, early winter 2021 and are valid for our Passport program. Please check the website under Courses & Events beginning in mid-November for the addition of these to the course list.
